# Navya Bhatia

Karnal, Haryana — Software Engineer

navyabhatia96@gmail.com — +91-9518131053 — linkedin.com/in/navya-bhatia — github.com/Navya2065

## Summary

Computer Science student passionate about backend engineering, automation, and scalable systems. Hands-on experience building full-stack applications using MERN Stack and Spring Boot, with strong knowledge of REST APIs and databases. Eager to learn AI technologies and build efficient, scalable software solutions.

## Education

**Chitkara University, Punjab** Expected Graduation: 2027
Bachelor of Engineering in Computer Science Engineering
CGPA: **9.29 / 10**

**Class XII (Senior Secondary)** 2022-23
Percentage: **92.6%**

**Class X (Secondary)** 2020-21
Percentage: **96.2%**

## Technical Skills

**Programming Languages:** Java, JavaScript, SQL, Python(basics)
**Full Stack Development:** React.js, Node.js, Express.js, Spring Boot, REST APIs
**Databases & Caching:** MongoDB, MySQL,PostgreSQL, Redis
**Core Computer Science:** Data Structures and Algorithms, Object-Oriented Programming, OS, DBMS, System Design
**Tools & Platforms:** Git, GitHub, Postman, Docker, AWS

## Projects

**HireSphere – AI-Powered Interview Platform (MERN)** *Full Stack Developer*

- Built a full-stack interview platform using MongoDB, Express.js, React.js, and Node.js with JWT-based role authentication, interview scheduling, and secure room access.
- Integrated real-time video calling, chat, and collaborative code editor using Socket.io and Stream SDK for seamless live technical interviews.
- Implemented AI-powered resume analysis, question generation, code review, interviewer rubric panel, and pre-join device checks to streamline hiring workflows.

**Skill Swap Platform (Spring Boot)** *Backend Developer*

- Developed a skill exchange platform using Java, Spring Boot, and MySQL for request-based interactions.
- Implemented request handling (accept/reject), point-based system, and notification features.
- Designed REST APIs with proper validation and exception handling.

**SportsConnect – Sports Sponsorship Platform (MERN Stack)** *Full Stack Developer*

- Built a platform using MongoDB, Express.js, React, and Node.js to connect athletes with sponsors.
- Developed features like profiles, search/filter, sponsorship campaigns, and post system.
- Implemented real-time chat and notifications using Socket.IO to enhance user engagement.

## Achievements

- Completed JPMorganChase Software Engineering Job Simulation (Forage), working with Spring Boot, REST APIs and SQL-based transaction systems.
- Completed Cloud Computing certifications from **IBM** and **Duke University**.

## Soft Skills

- Problem Solving & Analytical Thinking
- Effective Communication
- Team Collaboration
- Adaptability
- Quick Learning Ability
